

POSTURE PUMP® PRODUCT TESTIMONIALS

I can't thank you enough for the Posture Pump®. It's no secret that **soldiers carry a lot of weight** on their backs, especially with our bullet-proof vests. You guys should be selling your products in the army posts. Trust me, it's needed by all soldiers in all age groups. The Posture Pump® is already working on my back, **I can actually stand up straight**. Thank You So Much! PFC C. Dugan, US ARMY

I purchased a model 2000 (lumbar unit) from Dr. "H" after he used it in my therapy. **The results are beyond miraculous!!** I need a few more of the tri-fold brochures to give out to people who have witnessed my healing for them to take to their own doctors. **Thanks a billion times a billion. I weep in utter gratitude at being able to walk again.** Karen Prater; Enumclaw, WA

Nice, easily portable, and well built therapeutic device that our players have utilized this season. Some players have incorporated Posture Pro into their daily routines. Matt Johnson, Head Athletic Trainer; Iowa Cubs, AAA

I have dealt with scoliosis and cervical spine straightening due to being **injured by a drunk driver** for many years. While not a cure-all, **this unit has helped alleviate pain** and reduced some of the loss of sensation in my fingers. Alex, ICU; San Diego, CA; January 12, 2010

I am a golf teacher that is very much into performance and being 50 years old, my back was killing me. Very compressed in lumbar spine and this immediately made a difference in just a few days of usage. K. M., Golfer; Pearl City, HI

After surgery, I lived with **pain for three years**. I was always stiff and sore. I found out about the Posture Pump® at a seminar in October 1997. After just **3 months of use, I was amazed to find that I was pain free** and able to move without restrictions. Also, my energy level has dramatically increased. **Miracles do happen!** Bill McCarthy; Jackson, NJ

It is refreshing to know that surgery isn't the only solution being addressed by researchers. Thankfully, Posture Pro addresses more conservative concerns. It is my experience that **Posture Pump® improves the quality of life of patients**. If you wish to consider a non-surgical alternative, **Posture Pump® is a superior approach**. H. M. Debartolo, Jr., M.D., J.D.; Aurora, IL

I find the **Posture Pump® an exciting new approach to self help.** I have patients currently using this new technology and **getting really good results from neck and back problems.** These patients appreciate being in control of their own health destiny. Vice President of the American Preventive Medical Association: Murray “Buzz” Susser, M.D.; Santa Monica, CA

I use it on my patients and friends and some of my P.T.'s have already purchased from me. I feel it is a **great, safe, effective and easy to use product.** Joseph Zolot, M.D.; Needham, MA

I've been in practice for 13 years and the **Posture Pump® is a phenomenal addition for the Chiropractic profession.** By enhancing fluid transfer (imbibition) in the discs as well as cervical/lumbar curve restoration, my **severe cases of torticollis, sciatica and herniated discs are easier for me to correct.** The unique ability to allow my patients to completely relax in the recumbent position, while remolding their cervical and lordotic arcs is a great advancement. Michael Muffoletto, D.C.; Huntington Beach, CA

I recently tried both the Cervical and Lumbar Posture Pumps® on both myself and several of my current patients. The results were amazing. **My patients responded better than with our traditional mechanical traction with less discomfort.** I have some mild Degenerative Joint Disease in my cervical spine which flares-up occasionally. **The Posture Pump® gave immediate and lasting relief.** I plan on replacing both cervical and lumbar traction with the Posture Pump® for my future patients. Jeff Hill, D.P.T., M.A., C.S.C.S.; Gastonia, NC

I have been **amazed by the results** that I have had using the Posture Pump® in the clinic. **It is easy to use and I like the fact that its patient controlled.** It has added a new dimension to my Physical Therapy treatment programs. I feel good that I can help restore physiologic range of motion that so many of my patients lack. The patients like it too. The most frequent comments that I hear after someone has finished their Posture Pump® therapy is that **they feel straighter, looser and more mobile.** I recommend Posture Pump® with confidence to all my P.T. colleagues. Rene Cervi, R.P.T.; Redding, CA

As a Neuromuscular Massage Therapist, I am compelled to write to your company regarding your products. My wife has been in **constant pain for years due to three bulging discs in her neck and degenerative arthritis.** We were amazed that, with **her very first use of your Cervical Hydrator, her pain was eliminated! She uses it every night and sleeps pain-free.** We called my sister in California who has suffered with chronic neck pain from an auto accident. She was eager to try it. After only one application, her pain subsided substantially! With such dramatic successes, I also decided to order the Lumbar Hydrator for myself. I am now **no longer in pain.** I've also **noticed that I sleep better** when I use your products before retiring. Thanks for offering a superior product. With gratitude! Greg B. White, L.M.T.; Tallahassee, FL
